Bengaluru, India | Phone: 7019209379 | Email: [vishwasmudderesh@gmail.com](mailto:vishwasmudderesh@gmail.com) | linkedin: [www.linkedin.com/in/vishwas-mudderesh](https://www.linkedin.com/in/vishwas-mudderesh)

## SUMMARY

Python Full Stack Developer with practical experience in Django, React, and REST API integration gained through internship and projects. Skilled in designing scalable web applications, creating responsive interfaces, and working with databases such as PostgreSQL and MySQL. Passionate about problem-solving, continuous learning, and contributing to collaborative software teams.

## EDUCATION

### Bachelor of Engineering in Electronics and Communication Engineering (2025)

Global Academy of Technology

CGPA: 8.24

## TECHNICAL SKILLS

- **Programming Languages** : Python, Java, JavaScript, SQL
- **Web Technologies** : HTML5, CSS3, Bootstrap
- **Frameworks & Libraries** : Django, React
- **Databases** : PostgreSQL, MySQL
- **Tools & Platforms** : Git, VS Code, AWS (VPC, S3, EC2, Lambda)

## INTERNSHIP

### Python Full Stack Developer Intern | Scontinent Technologies, Bengaluru (Jan 2025-Apr 2025)

- Developed and maintained web applications using Python and Django.
- Built responsive UIs using HTML, CSS and JavaScript.
- Implemented REST APIs and ensured seamless front-end/back-end functionality.
- Worked with databases like PostgreSQL and MySQL.

## PROJECTS

### E-Commerce Website (Django, React, MySQL)

- Designed a scalable fashion e-commerce platform with secure authentication, product catalog, and cart management.
- Implemented advanced features such as product filtering, search, and order tracking using Django REST APIs.
- Optimized MySQL queries to handle multiple concurrent transactions smoothly.

### Personal Blog Page (Django, SQLite)

- Engineered a blogging platform where users can register, publish blogs, and engage through comments.
- Applied full CRUD operations with a responsive Bootstrap UI for cross-device accessibility.
- Integrated authentication to manage blog ownership and ensure content security.

### Restaurant KIOSK (Django, SQLite, Web technologies)

- Constructed a self-service restaurant kiosk for menu browsing, order placement, and bill generation.
- Designed a touch-friendly front-end with real-time updates and responsive layouts.
- Linked order management with SQLite to streamline kitchen workflow and order tracking.

## CERTIFICATIONS

- Python Foundation Certificate - Infosys Springboard
- Python Full Stack Bootcamp - Udemy
- Problem Solving certification - HackerRank
